BISON

It isn't always easy being green. Sexy organic hops are hard to come by. This year, we scored hella' Organic Simcoe® and finally brewed our very first Double IPA.

With over 3 lbs of hops per barrel, Kermit The Hop is bright, citrusy and tongue-tinglingly bitter. Resinous pine coats the tongue and reluctantly gives way to grapefruit and a grassy bitterness that lingers at the back of the tongue for days.

Drinking green never tasted this good.
